

# CNH | KEY CLUB

## Relay for Life and May DCM

Relay for life is a fundraising event for the American Cancer Society, a nationwide organization whose mission is to spread knowledge about how to prevent health issues, support patients, and to eliminate cancer from being a major risk to a person's health. Approximately 595,690 people had lost their battles against cancer in the United States and worldwide about 8.2 million had passed away. This past Saturday, the Burbank Key Club was able to participate in the ongoing fight against the second most leading cause of death. From the early morning to sundown, Key Clubbers made laps with volunteers and cancer survivors from all over the community to fundraise for this movement! During the walk, members, volunteers, and amazing individuals supported each other and had an overall fun experience serving their community and making an impact on the world. The endless support, encouragement, and unconditional love from this day give HOPE to everyone that cancer will be defeated one day.

All Smiles

Charades at the DCM!

Rebeca Gasper, D16S' new LTG, held her first Division Council Meeting successfully during Relay for Life! A brief overview on DCON was presented, upcoming events were discussed, members of the Division Leadership Team for the 2017-2018 term were announced, and awards were given to outstanding Key Clubbers for the month of May.

### How was Relay for Life?

"Relay for Life was an event that reminded me once again why I'm in Key Club and I felt so grateful to have such an opportunity to support for a great cause with amazing people around me." – Silvia Ko (Treasurer)

"This was the first time I went to this event and it made me really happy to see not only Key Club, but everyone coming together as a community to show support and fundraise for cancer. I walked 8 miles and I couldn't stop smiling throughout the event" –Krystal Hirahara (Exec. Memb.)
